Payroll&Tax

Makes the Complicated Easy

Getting payroll and taxes right is #1 priority for businesses that want to retain employees, stay compliant, and scale for growth. Whether you have 5 or 50,000 employees, our full-service solution automates all of the complex moving parts associated with payroll and taxes without extra programming or steps. From wages, to benefits, overtime, garnishments, tips, direct deposits, FLSA, and all tax codes and jurisdictions — while ensuring your sensitive payroll data is protected.

Reduce the workload of your HR and payroll teams by enabling employees to access pay stubs, view PTO accrual information, request time off, download W-2s, and much more.

Eliminate time-consuming, error-prone manual calculations that often result in payroll adjustments, staff frustration, and employee dissatisfaction.
